

LEGACY SERIES ATV SHOCK ABSORBERS

Upgrade the handling, performance and comfort level of your Sport & Racing ATV with our Legacy Series shock packages

These complete front and rear shock packages are ideal for casual and recreational riders looking for a simple, affordable shock upgrade or in need of an OE replacement shock. The Legacy Series kits can improve the comfort, ride compliance and handling beyond what the stock shocks have to offer. Their design is based on our previous generation technology with steel shock body, external reservoirs and basic adjustments. They are sold exclusively in front and rear kits to help keep the price down, making them more accessible to everyone.

LEGACY SERIES // BENEFITS

- Affordable complete shock package that includes front and rear shocks
- Good performance upgrade over stock shocks
